VELIN ILIEV
FULL STACK DEVELOPER

📍 Sofia, Bulgaria   @ veliniliev@gmail.com   🔗 https://github.com/VelinIliev   🔗 personal site

ABOUT ME

Enthusiastic **Full Stack Developer** with a creative background in **Graphic Design.** Strong foundation in **front end** and **back end** development, combined with a keen eye for design aesthetics. **Eager** to contribute unique insights and skills to dynamic development projects.

Strong **passion** for staying updated with the latest web development trends and technologies. Excellent **problem-solving** skills and the ability to collaborate effectively within a team. Strong **communication skills** in both technical and non-technical contexts.

EXPERIENCE

Full Stack Developer
Intern & Team Lead Academy 2
📅 05/2024 - 10/2024   📍 Remote

Migration of SULS (Software University Learning System) from **.NET Framework 4.6.1, Entity Framework 6.1.3, ASP.NET MVC 5.2** to **.NET 8, Entity Framework Core, ASP.NET Core MVC.**

Full Stack Developer
Intern & Team Lead Academy
📅 11/2023 - 02/2024   📍 Remote

As an intern in SoftUni's 'Intern & Team Lead Academy,' I am actively involved in the 'Kitchen Helper' project. I am contributing to the development of an advanced recipe search system and **front end**. Our team is dedicated to enhancing filters for preparation time, complexity, nutrition, etc. We leverage technologies such as **FastAPI, PostgreSQL, Alembic, SQLAlchemy, Uvicorn, Nginx, VueJS, Pinia, Axios, and Docker** to ensure a cutting-edge and efficient solution.

`live` `front-end` `back-end`

Gprahic Designer
📅 11/2021 - present   📍 Sofia, Bulgaria

In conjunction with my regular work responsibilities, I have been crafting **web banners** to fulfill the company's requirements. Furthermore, I adeptly utilize **Python** and **ExtendScript** to develop scripts that seamlessly transform Excel files into meticulously prepared InDesign documents, optimized for printing purposes.

PROJECTS

Final project for Python Web Framework (Django)
SoftUni
📅 07/2023 - 08/2023   📍 Remote

Developed a **Server Side Rendering** project aimed at facilitating cinema ticket reservations. This dynamic web application was crafted using a robust tech stack, including **Django** for the backend, **Django REST** framework for API development, **Django Template Language** for efficient template rendering, and a seamless integration of **HTML, CSS, and JavaScript** for a responsive and engaging user interface. The utilization of these technologies ensures a high-performance and user-friendly experience for individuals navigating the cinema ticket reservation process.

`code`

Personal site
📅 07/2024   📍 Remote

Launched my first personal website, meticulously built with **VueJS**. This project showcases my skills in front-end development and my dedication to creating seamless user experiences.
